

## **SCHEDULE 4**

### **Meeker Cooperative Light & Power Association**

Procedure for notifying Qualifying Facilities (QF) of periods when the Cooperative or East River Electric Power Cooperative on behalf of the Cooperative through the Federal Energy Regulatory Commission (FERC) approved PURPA Qualifying Facilities Joint Implementation Plan (JIP) will not purchase electric energy or capacity due to operational circumstances that would make the cost of purchases during those periods greater than the cost of internal generation.

1. Qualifying Facilities less than 40 kW:

The Cooperative does not plan to discontinue purchases of energy and capacity at this time. The current expected cost of supplying such notification would exceed any savings from not purchasing from the QF. At such time as it becomes economically feasible to provide such notice, the Cooperative will develop the necessary procedure.

2. Qualifying Facilities 40 kW - 150 kW:

Neither the Cooperative nor East River Electric Power Cooperative on behalf of the Cooperative through the FERC approved JIP, plan to discontinue purchases of energy and capacity at this time. The current expected cost of supplying such notification would exceed any savings from not purchasing from the QF. At such time as it becomes economically feasible to provide such notice, the Cooperative or East River Electric Power Cooperative will develop the necessary procedure.

3. Qualifying Facilities greater than 150 kW:

Discontinuing purchases by the Cooperative or East River Electric Power Cooperative on behalf of the Cooperative through the FERC approved JIP will become part of the negotiated contract.
