

Attention MCLP Members

YOU MAY BE ELIGIBLE FOR SALES TAX EXEMPTION—READ BELOW

In 1978 the Minnesota Legislature passed a law which provided that electricity sold to residential users where electricity is the primary source (over 50%) of heat are exempt from Minnesota sales tax. The billing months from November 20 through April 20 are tax exempt months. All electricity used through the same meter, whether for heating purposes or not, is exempt for the six-month period.

If the initials "EH" appear after the location number on our monthly electric bill, you are already receiving the sales tax exemption. If you heat with electricity and the initials "EH" DO NOT appear after your location number, please complete and return the following exemption certificate. Thank you.
