Meeker Cooperative is an equal opportunity provider and employer.

2025 ANNUAL MEETING & MEMBER APPRECIATION EVENT

Meeker Cooperative is built on the strength of its members, and your participation plays a key role in shaping our future. Our Annual Meeting and Member Appreciation Event is more than just a gathering—it's an opportunity for transparency, engagement, and community connection.

We invite you to join us on May 21, 2025, at Meeker Cooperative's headquarters. The annual meeting will take place at noon, followed by an afternoon of exciting activities, valuable information, and great food from 12:30 PM to 6:00 PM. Enjoy opportunities to meet with Co-op leaders, explore interactive displays, and learn more about the services that power your community.

ENGAGE & EXPLORE

Throughout the event, you'll have the chance to visit informational booths and exhibits, including:

- **Meet Your Director** – Connect with your Co-op leadership.
- **VIBRANT Broadband** – Learn about high-speed internet options.
- **Energy Management** – Discover ways to maximize efficiency.
- **Heartland Security** – Explore security solutions for your home or business.

Continued on page 2.

ANNUAL MEETING CONTINUED...

- **Meeker History Display** – A journey through nine decades of service.
- **Safety Trailer Demonstration** – Learn about electrical safety through live demonstrations.
- **Splicing Trailer on Display** – Get a behind-the-scenes look at fiber splicing.
- **Tools of a Lineman and Technician Display** – See the specialized equipment required in the field.

FOOD & REFRESHMENTS

A great event wouldn't be complete without great food! Enjoy Wattenhofer Grilled Pork Chops, baked beans, potato salad, and a tasty dessert.

ELECTRIC EXPERIENCE

If you're interested in electric innovation, don't miss the Electric Experience area where you can check out electric vehicles, electric yard tools, electric bikes, and electric scooters. These displays will offer a firsthand look at the growing role of electric technology in our daily lives.

PRIZE DRAWINGS

Attend for a chance to win fantastic prizes, including:

- \$90 Bill Credit
- EGO Power+ Combo Cordless Trimmer and Blower
- Amazon Echo Show 15 – A stunning HD 15.6" smart kitchen TV for home organization
- Smart Home Package
- MEATER Plus: Smart Bluetooth Wireless Meat Thermometer
- \$100 Meat Gift Certificate

FUN FOR KIDS

Families are welcome! Kids will love the High Voltage Chaos Obstacle Course, Wacky Bounce Castle, and Joah's Ark Petting Zoo. 28-13-406 Plus, three lucky kids will take home an Electric Scooter in our special drawings!

JOIN US!

This is your cooperative, and your participation matters. Come enjoy a day of appreciation, learning, and fun while connecting with fellow members and Co-op leaders. We look forward to seeing you on May 21st at Meeker Cooperative!

GET TO KNOW THE DIRECTOR CANDIDATES

The following pages provide a summary of answers from the required Application Form that candidates submitted. Nominees in Districts 3 and 8 were unopposed, so they have been declared elected by the Qualifications and Election Committee.

BALLOTS & VOTING

Ballots will be mailed to members in District 5 during the week of April 21. Follow the instructions on the ballot to mark your choice and return it to Pemberton Law. The bylaws state that properly executed ballots must be received as described on the ballot on or before the last business day of the Cooperative prior to the date of the annual or special meeting in order to be counted.

ANNUAL MEETING NOTICE

MEEKER COOPERATIVE LIGHT AND POWER ASSOCIATION NOTICE OF 2025 ANNUAL MEETING

Please take notice that the Annual Meeting of the Members of Meeker Cooperative Light and Power Association will be held at 12:00 PM, Wednesday, May 21, 2025, at Meeker Cooperative, 1725 US HWY 12 E, STE 100, Litchfield, Minnesota 55355, for the following purposes:

1. Reading of, and acting upon, the unapproved minutes of the 2024 Annual Meeting;
2. Receiving and acting upon reports of Officers, Directors and Committees;
3. Electing Directors of the Cooperative to fill offices of those whose terms expire on May 21, 2025;
4. Considering any unfinished business and taking up such new business as shall properly come before the meeting and acting on such matters as necessary for the best interest of the Association.

Karen Becker, Secretary

RECONSIDERING MINNESOTA'S NUCLEAR MORATORIUM: A PATH TO A BALANCED ENERGY FUTURE

As Minnesota works toward a cleaner energy future, it's important to evaluate all potential power sources that can provide both reliability and sustainability. As the state moves toward its goal of 100% carbon-free electricity by 2040, discussions about the role of nuclear power have resurfaced.

Currently, Minnesota has a moratorium on constructing new nuclear power plants, a policy that has been in place since 1994. However, with advances in technology and the growing need for reliable, carbon-free energy, it may be time to reconsider this restriction.

A LEGISLATIVE PRIORITY FOR MN'S ENERGY FUTURE

Lawmakers in both the House and Senate are considering bills that would allow for the exploration of new nuclear technologies, including Small Modular Reactors. These discussions are a critical step in determining whether nuclear energy can play a responsible and beneficial role in Minnesota's long-term energy strategy.

State legislators are actively engaging with industry experts, cooperative leaders, and energy stakeholders to evaluate nuclear power's potential contributions to a carbon-free future.

WHY IS NUCLEAR ENERGY PART OF THE DISCUSSION?

Minnesota's commitment to a carbon-free future means reducing reliance on fossil fuels while ensuring a steady, dependable power supply. 08-25-101 While wind and solar energy have made significant contributions to the state's energy mix, these sources are intermittent meaning they only generate electricity when the wind blows or the sun shines.

Nuclear energy, on the other hand, provides consistent and reliable baseload power. Unlike renewables, nuclear plants operate around the clock, helping to stabilize the grid and ensuring that electricity is available when it's needed most. This reliability is especially important in Minnesota, where extreme temperatures place high demands on the energy system.

THE ADVANCEMENTS IN NUCLEAR TECHNOLOGY

In the past, concerns about nuclear energy centered around safety, spent fuel disposal, and high costs. However, advancements in nuclear technology have addressed many of these issues. One of the most promising developments is Small Modular Reactors, a new generation of nuclear reactors designed to be safer, more efficient, and more adaptable to a modern energy grid.

Small Modular Reactors have several advantages:

- **Enhanced Safety** – New reactor designs have built-in safety features that significantly reduce the risk of and potential for accidents.
- **Smaller Footprint** – Small Modular Reactors take up less space than traditional nuclear plants, making them easier to integrate into existing infrastructure.
- **Scalability** – These reactors can be built in stages, allowing utilities to expand capacity as needed.
- **Reduced Waste** – Advances in fuel technology mean that Small Modular Reactors produce less nuclear spent fuel compared to older reactors.

Lifting the moratorium could allow Minnesota to explore these next-generation technologies and work to incorporate them into the state's long-term energy strategy.

BALANCING RELIABILITY AND SUSTAINABILITY

As Minnesota works toward a cleaner energy future, it's important to balance environmental goals with the need for affordability and reliability. Large-scale hydroelectricity and carbon capture have also been proposed as part of the solution, but nuclear energy remains one of the few options that can provide steady, emissions-free power.

Other states and countries are already investing in nuclear as part of their carbon reduction plans. By lifting the moratorium, Minnesota would have the opportunity to study and consider nuclear energy's potential, rather than excluding it outright.

AN OPPORTUNITY FOR THOUGHTFUL DISCUSSION

Lifting the nuclear moratorium does not mean Minnesota will immediately build new nuclear plants. Rather, it opens the door for further study, discussion, and careful planning. At the heart of this conversation is a simple question: How can Minnesota achieve its carbon-free goals while maintaining a reliable and affordable power grid? By keeping all options on the table—including nuclear—we can make informed decisions that benefit all Minnesotans.

Minnesota's energy future will require innovation, collaboration, and careful planning. Revisiting the nuclear moratorium is one step toward ensuring that future generations have access to safe, reliable, affordable and sustainable power.

Dedicated to keeping the lights on and the data flowing,

Luke Johnson

CEO, Meeker Cooperative

BOARD OF DIRECTOR CANDIDATES 2025

DISTRICT 3: Includes the townships of Luxemburg, Maine Prairie, South Maine Prairie in Stearns County; Forest Prairie in Meeker County.

DISTRICT 3

Brad Donnay
(Incumbent)

11310 155th Street
Kimball, MN 55353

Brad Donnay lives in Kimball, Maine Prairie Township, and has been a Meeker Cooperative member for 26 years. He represents District 3 and is a self-employed dairy goat farmer producing farmstead cheese. His Co-op involvement includes attending annual meetings, Co-op 101 sessions, the Co-op Tour of Coal Creek, and serving as a trustee for the Meeker Cooperative Electric Trust.

Brad brings an open-minded attitude, strong collaboration skills, and a willingness to listen to new ideas. Outside of Meeker Cooperative, he has been a Compeer Financial member for 27 years. His leadership roles include serving on the Kimball Fire Department for 20 years as treasurer, previously served the Kimball Wrestling Boosters for 10 years as president, and various church leadership positions. He has served on the Meeker Cooperative board since 2012 and has completed the NRECA CCD training program.

He is enrolled in stored water heating, storage heat, peak-shaved water heating, and dual fuel programs. He also utilizes e-billing, ACH automatic payments, and participates in Operation Round Up. Brad believes Cooperative programs serve an essential purpose and should be regularly reviewed.

Brad's short-term goals include providing safe, reliable electricity and ensuring broadband access in rural areas. Long-term, he aims to keep electric rates competitive amid evolving regulations. He supports energy conservation when economically feasible and maintaining a diverse energy portfolio, including coal. He recognizes the potential in battery storage and Meeker Cooperative's leadership in this area.

Brad strongly supports broadband expansion, emphasizing its importance for education, healthcare, and economic development. He identifies government regulations on carbon-free mandates and renewables as the biggest challenge to the Co-op's future. Committed to affordability and reliability, he seeks to contribute to the Cooperative's continued success.

DISTRICT 5: Includes the townships of Fairhaven in Stearns County; Cokato, Southside, French Lake in Wright County; and Dassel in Meeker County.

DISTRICT 5

David Leonhardi
(Incumbent)

27322 734th Avenue
Dassel, MN 55325

David Leonhardi lives in Dassel Township, representing District 5. A Cooperative member for nine years, he is primarily retired but does consulting work. His Co-op involvement includes attending annual meetings, serving as a trustee for the Meeker Cooperative Electric Trust, participating in Co-op 101, and touring North Dakota's coal mine and power plants. He has also served on the Qualifications and Election committee.

David has extensive board experience, including serving with the International Dairy Deli Bakery Association, the National Restaurant Association, and as a youth sports commissioner. He recently completed the required CCD education courses for Co-op board service and has served as a Meeker Cooperative director for over one year.

David participates in SmartHub, stored water heating, storage heat, peak-shaved water heating, and dual fuel programs. He is a Vibrant Broadband subscriber and an Operation Round Up participant. He believes battery storage could provide backup solutions for peak demand and storms.

His short-term goals include prioritizing safety, maintaining affordable power and internet services, and supporting green energy initiatives. Long-term, he aims to ensure Meeker Cooperative remains transparent and competitive. He supports renewable energy while prioritizing cost-effectiveness and responsible environmental practices.

David sees broadband expansion as critical and identifies inflation and regulatory challenges as top concerns. Having served on the board for 15 months, he values representing Cooperative members and contributing to the Co-op's continued success.

**FIND YOUR
LOCATION
NUMBER**

Four location numbers are hidden within this Pioneer and four more in articles published on our website. If you find your number and claim it by calling Meeker Cooperative before April 30, you will have \$10 credit to your account. When you call and verify your information is correct in our system, you will also receive an additional bill credit equal to one month's output from a Member Solar Panel.

BOARD OF DIRECTOR CANDIDATES 2025

DISTRICT 5: Includes the townships of Fairhaven in Stearns County; Cokato, Southside, French Lake in Wright County; and Dassel in Meeker County.

DISTRICT 5

Ben Beckman

72366 240th Street
Dassel, MN 55325

Ben Beckman lives in Dassel Township, and has been a Meeker Cooperative member for 11 years. He lives in District 5. Ben is a banker at Citizens Bank & Trust and a former Meeker Cooperative director. His Co-op involvement includes Co-op 101 participation and attending numerous member appreciation events.

Ben's strengths include his background as a farmer, past Meeker Cooperative director, and education in finance, holding a Bachelor of Science in Finance and an MBA. He is also a member of United Farmers Cooperative, Hutchinson Cooperative, and REI. His leadership experience includes serving on the Hutchinson Chamber of Commerce (currently vice chair and former treasurer), the Rotary Club of Hutchinson (currently treasurer and past president), and the Dassel Development Corporation (currently treasurer).

Ben is enrolled in cycled air conditioning, stored water heating, automatic payment plans, and is a Vibrant Broadband subscriber. His short-term goals focus on providing reliable, low-cost power and supporting economic development. Long-term, he envisions Meeker Cooperative as a leader in Minnesota's power industry while maintaining financial stability.

Ben supports energy efficiency without government mandates. He believes renewables should compete without tax subsidies. He acknowledges the importance of battery storage, transmission line expansion, and distribution line maintenance for reliable electricity. He sees high-speed internet as essential for economic growth and believes Vibrant broadband should be a leader in providing service and do it profitably.

Ben identifies government mandates as the Co-op's biggest challenge. With his background in finance and leadership, he is committed to helping Meeker Cooperative maintain its strong position in the industry.

DISTRICT 8: Includes the townships of Darwin, Ellsworth in Meeker County.

DISTRICT 8

Jerome Wosmek (Incumbent)

18064 668th Avenue
Darwin, MN 55324

Jerome Wosmek lives in Ellsworth Township, District 8, and has been a Meeker Cooperative member for 27 years. He is currently retired. He has attended several Cooperative events, including member appreciation gatherings and Co-op informational sessions.

Jerome's strengths include effective communication, idea-sharing, mechanical aptitude, and a strong work ethic. In addition to his Meeker Cooperative membership, he has been a McLeod Co-op Power member for 44 years and a Hutchinson Co-op Cenex member for 30 years. His leadership experience includes serving on the Brownton School District board for nine years, the Brownton Rod and Gun Club as president for six years, and the Lake Erie Community Association as president for four years. He has served as a Meeker Cooperative director for two months.

He is enrolled in cycled air conditioning, stored water heating, and is a Vibrant Broadband subscriber. Jerome believes the Cooperative's current programs are effective. His short-term goals include managing inflation costs to maintain financial stability, while his long-term focus is leveraging technology to control operating expenses and keep rates affordable.

Jerome supports energy conservation but has concerns about the cost-effectiveness of renewables and recycling challenges for solar panels and wind turbine blades. He sees battery storage as a possible viable way to balance energy supply and costs in the future. On net metering, he believes the Co-op should not pay more than standard supplier rates.

Jerome commends the Co-op's broadband expansion and sees inflation as its biggest challenge. With over 45 years of experience in manufacturing and product development, he is committed to ensuring Meeker Cooperative remains financially stable and innovative.

Meeker Cooperative Distributes \$14,300

Thanks to the generosity of Meeker Cooperative’s participating members and VIBRANT subscribers, the Meeker Cooperative Electric Trust Board recently approved \$14,300 in grants to support local community organizations.

Through Operation Round Up®, small contributions come together to create meaningful change. 29-26-412 Members and subscribers have the option to round up their monthly bills to the nearest dollar, donating just pennies at a time. While it may seem like a small act, these contributions add up to make a big difference—helping fund vital community initiatives and improving the lives of neighbors in need.

“As little as a few cents each month—about the cost of a cup of coffee per year—adds up to real support for families, nonprofits, and local programs,” said Trust Chair Laura Niece. “Operation Round Up proves that when we come together, we can do something truly impactful.”

Meeker Cooperative is proud to give back to the communities it serves, reinforcing its mission to enhance quality of life beyond providing reliable electricity and broadband.

The Electric Trust Board meets three times per year to review applications and award grants. If your organization could benefit, check out the upcoming 2025 application deadlines: July 3 and November 6. Application details and guidelines are available at www.meeker.coop.

Together, we’re lighting the way for stronger communities—one rounded-up bill at a time!

WILLIE WIREDHAND'S ELECTRICITY FUN FACT

The first centralized electric power plant, Pearl Street Station, began operation in New York City in 1882, marking a major milestone in modern energy distribution. Developed by Thomas Edison, it supplied electricity to 59 customers, demonstrating the potential of centralized power generation and paving the way for the development of widespread electric grids.

MEMBER NEWS

NOTICE: CO-GENERATION AND SMALL POWER PRODUCTION

In compliance with Cooperative Rules implementing Minnesota Statute section 216B.164 Co-generation and Small Power Production Notice, Meeker Cooperative Light & Power Association is required to interconnect with, and purchase electricity from, co-generation and small power production facilities that satisfy the conditions of a Qualifying Facility.

Meeker Cooperative has available and will provide information to all interested members regarding rates and interconnection requirements. An application for interconnection is required for a Qualifying Facility to interconnect and operate in parallel with the Cooperative’s distribution system and is subject to approval by the Cooperative. For more information regarding interconnection of distributed energy systems, please contact us either by visiting our website at <https://www.novapowerportal.com/Home/Index/5>, email to DERcoordinator@meeker.coop or by calling Meeker Co-op during business hours, 8:00 AM – 4:30 PM at 320-693-3231.

MEEKER COOPERATIVE BOARD MEMBERS EARN CERTIFIED COOPERATIVE DIRECTOR CREDENTIAL

Board President Brad Donnay presents Director Leonhardi (left) and Director Pearson (right) with their CCD certificate.

Meeker Cooperative is proud to recognize David Leonhardi and Neil Pearson for successfully completing the Certified Cooperative Director (CCD) program through the National Rural Electric Cooperative Association (NRECA). This achievement ensures they are well-prepared to fulfill their responsibilities as board members, representing Meeker Cooperative members with a strong foundation in cooperative governance and industry knowledge.

The CCD program is a nationally recognized credential designed to equip electric cooperative directors with the knowledge and skills needed to make informed decisions on behalf of their members. 09-22-302 The program consists of courses covering the cooperative business model, board operations, financial decision-making, strategic planning, and the duties and responsibilities of directors. By completing this training, board members gain a deeper understanding of the challenges and opportunities facing electric cooperatives, allowing them to contribute more effectively to the cooperative's mission.

David Leonhardi represents District 5, which includes parts of Stearns, Wright, and Meeker Counties, serving members in the communities of Fairhaven, Cokato, Southside, French Lake, and Dassel. His current term runs through 2025.

Neil Pearson represents District 6, covering areas in Kandiyohi, Meeker, and Renville Counties. This district includes Harrison, Kandiyohi, Genessee, Fahlun, Lake Elizabeth, East Lake Lillian, Cosmos, Acton, Danielson, Swede Grove, Brookfield, and Boon Lake. His current term extends through 2026.

"Earning this credential is an important step for cooperative directors," said General Manager Luke Johnson. "The CCD program provides essential training that helps board members navigate the complexities of the electric industry while maintaining the cooperative's commitment to serving its members."

Meeker Cooperative congratulates David and Neil on this achievement and appreciates their commitment to ongoing education and leadership.

FEATURED RECIPE

PIZZA TOT CASSEROLE | SUBMITTED BY: ROSALEA HOEFT

INGREDIENTS

- 1# hamburger
- 1 med. onion chopped
- 1 med. green pepper chopped
- 1 11oz can Italian tomato soup
- 1 4.5oz. jar sliced mushrooms (drained)
- 2 c. shredded mozzarella cheese
- 1 32oz. pkg frozen tater tots

DIRECTIONS

In skillet cook first 3 ingredients, drain. Add undiluted soup and mushrooms. Put in a greased 9x13 pan. Top with cheese and tater tots. Bake uncovered at 400 degrees for 30-35 minutes or until golden brown.

Note: If you can't find the soup add 1tsp Italian Seasoning to plain tomato soup.

Submit your favorite recipe for our next issue! The chosen winner will receive a \$10 credit to their account. DEADLINE: April 30, 2025.

STATE FAIR BUS TRIP

AUGUST 21, 2025 | \$45 PER PERSON

Experience the grandeur of the MN State Fair hassle-free! Join us on a luxury motorcoach trip for Opening Day, celebrating all things Minnesotan in agriculture, entertainment, and cuisine—with something for everyone to enjoy.

Departing from Meeker Cooperative at 8 a.m., our luxury motorcoach will take you to the fair, where you'll enjoy 7 hours of exploration and fun before departing at 4:30 p.m. The price includes the bus ride, a fair entrance ticket, and beverages on the bus. Keep in mind that activities, snacks, and meals inside the fair are on your own.

While you're there, don't miss:

- Tasting iconic fair foods like cheese curds, mini donuts, and anything-on-a-stick
- Stroll through the Agriculture Horticulture Building and Creative Activities exhibits
- Enjoying free music and entertainment

Seating is limited and filled on a first-come, first-served basis until the bus is full. Tour participants must have a cell phone and supply the trip host with your cell phone number before the bus leaves Litchfield.

Scan the QR code to learn more and sign up!

TWINS GAME BUS TRIP

JUNE 26, 2025 | \$75 PER PERSON

We are excited to invite you to join us for a fun-filled day at Target Field to watch the Minnesota Twins play against the Seattle Mariners on Thursday, June 26! Our bus trip will take you straight to the stadium, without having to worry about traffic, parking, or navigating downtown Minneapolis.

Your ticket includes a comfortable and convenient ride to the game, ticket to the game and all-inclusive ballpark fare (including hotdogs, burgers, chicken tenders, popcorn, chips, soda, water, juice, and milk).

We'll depart from the Meeker Cooperative parking lot at 8:00 a.m. and arrive at Target Field in plenty of time to catch the first pitch at 12:10 p.m. After the game, we'll return to the same location.

Don't miss out on this opportunity to cheer on the Twins with your friends and family while leaving the driving to us. Tickets are limited and sell out fast, so make sure to reserve your spot today. The deadline to register is May 14, 2025.

Scan the QR code to learn more and sign up!
